Editor, *Live Wire*, Energy & Extractives Global Practice, World Bank, 2014–present.

Working with authors (many of whom are not native speakers of English), graphics artists, and World Bank staff, I am responsible for the editorial quality of a series of topical briefs (4–16 pages) on world energy issues. I supervise the graphic design and provide written guidance to authors. Translator. *Bernard-Henri Lévy*. 2011–present. In connection with the cultural, political, and charitable activities of French intellectual Bernard-Henri Lévy, I translate hundreds of documents and communications each year. My translations of Lévy's columns and commentaries are published in [Wall Street Journal](#), [New York Times](#) (and the [Book Review](#)), [Time](#), [The Guardian](#) (London), [Sunday Times](#) (London), [Globe and Mail](#) (Toronto), [Daily Beast](#), [Vanity Fair](#), [New Statesman](#), [Newsweek](#), [Tablet](#) (New York), and other newspapers and magazines in Europe, Latin America, and the Middle East.

Translator. *Campus France*. 1998–present. For the national agency responsible for promoting postsecondary education in France to international students, I have for more than two decades translated a wide range of materials, including high-level strategies, contracts, press kits, and descriptions of French degrees, academic institutions, and scholarship programs. Some of these are listed individually elsewhere in these pages. My translations for the Campus France website are not signed and therefore cannot be distinguished except by their native quality from other material in English on the Campus France website. <https://www.campusfrance.org/en>

Editor, *Policy and Knowledge Notes Series*, East Asia and Pacific Umbrella Facility for Gender Equality (UFGES), World Bank, February 2015–18. For a joint initiative of the United Nations, the World Bank, and the International Energy Agency, I edited the first edition of the *Sustainable Energy for All Global Tracking Framework*, which set the agenda for tracking global progress toward the SE4ALL goals for 2030 (to ensure universal access to modern energy services, to double the global rate of improvement in energy efficiency, and to double the share of renewable energy in the global energy mix). In addition to the flagship publication, I managed the editing of collateral publications and communications about the initiative. <http://hdl.handle.net/10986/16537>

Managing Editor, *Africa Infrastructure Country Diagnostic*, 2007–2011. I was the substantive editor of 4 volumes based on results of original research into Africa's infrastructure needs funded by the African Union, Agence Française de Développement, U.K. Department for International Development, World Bank, and others.
